

# Working in Your Woods

## A Bird's Eye View

### Workshop for forest landowners describing:

- ✓ A variety of techniques to create healthy forests and help wildlife
  - ✓ Financial incentives and programs available to landowners
  - ✓ Opportunities to benefit a variety of bird species, including:

Ruffed  
Grouse

Scarlet  
Tanager

Wild  
Turkey

Cerulean  
Warbler

American  
Woodcock

### Day 1: Learn from the Experts – Indoor Sessions

Presentations by expert speakers from U.S. Forest Service, Penn State, Natural Resources Conservation Service, PA Game Commission, Foundation for Sustainable Forests, and Audubon PA about:

- History of Pennsylvania's forests
- Long-term management for your woods
- Landowner assistance programs
- Prescribed fire
- What birds need and how to make sure your woods have it

### Day 2: Practical Applications – Outdoor Sessions

Workshop participants will visit a variety of sites to see examples of the practices and habitat discussed during Day 1 of the workshop and, depending on conditions, have the opportunity to see birds in hand at a bird banding site. Transportation will be provided for these site visits.

**Workshop Dates:** June 9-10, 2017; 11:00am-5:30pm on the 9<sup>th</sup>, 9:00am-5:00pm on the 10<sup>th</sup>

**Workshop Location:** Mukaiyama University Room, Frame-Westerberg Commons, University of Pitt-Bradford, Bradford, PA

- No registration fee and free lunches provided each day
